

CaritasCare

Making lives better

Annual Overview 2016/17

Welcome to our Annual Review 2016/17, which you will find packed with highlights, stories, facts & figures from a year in which we celebrate reaching out to support more people than ever.

We have attracted new funding, been awarded new contracts, and enjoyed success in our bids for Local Authority 'frameworks' to help further our work in Fostering and Learning Disability services.

Our Adoption services have gone from strength to strength, working alongside our partners to develop the new Regional Adoption Agencies in the North West.

Our sincere thanks go to every single one of our dedicated staff and volunteers, partners, funders and benefactors for making all this happen!

Amanda Forshaw - Chief Executive
Paul Desborough - Chair Of Trustees

**We have been very proud
this year to launch our
Dear Adopter campaign.**

We engaged several of our adopters to write a series of letters about their adoption experiences and apprehensions. We are delighted to say that they really did step up to the challenge with their inspiring stories.

You can read all their letters here..
caritascare-iadopt.org.uk/dear-adopter

Dear Adopter

Allowing yourself to dream of the simple things is the greatest pleasure, of feeding ducks and pushing a pram, the things you've suppressed for so long as it was just too painful. I relished in walking down the children's aisle in the supermarket, I was suddenly allowed, I was going to be a mummy and had finally given myself permission to step into this forbidden land. Some may think I'm crazy but I'm wondering if you can relate? I have a sneaking suspicion that you can!

Love Lauren

Surviving and thriving after Baby returned to birth family: "There's definitely life after a baby returns to their birth family. My concurrency placement was an invaluable learning experience. It helped me to grow. It taught me about selflessness. And it helped to prepare me for my next placement. After a six month break and once again weighing up the pros and cons of traditional adoption vs Concurrency, I'm ready to climb aboard the concurrency roller coaster again."

CfAS Manager Delyth Awarded Adoption Support Worker of the Year

Delyth Evans was named as Adoption Support Worker of the Year at the National Adoption Week Awards held in London in October 2016. Delyth has worked within children's services for over 30 years and for the last 10 years, within the field of Adoption Support. By the end of the first 2 years Delyth and her team had considerably exceeded all targets and expectations and she was recently invited to share the CfAS model with in both Wales and Northern Ireland. Congratulations to Delyth on this fantastic achievement. Delyth is pictured with Award Presenter Claire Grogen and Children's Minister Edward Timpson.

The positive aspects of living in a fostering family are “a bigger family, more people, more things to do and I have a best friend in Joe.”

Toby, 19.

I like living with my foster family because they listen to me and keep me safe

Congratulations to Sarah on her Achievement Award

This year Sarah Lal received the Fostering Achievement Award in recognition of her efforts and contributions to society, at The Fostering Network's Fostering Excellence Awards. 'Sarah's resilience makes her amazing. I have never heard Sarah complain once. She is the most caring natured young lady I have ever met and is so caring for others despite not always receiving the care she deserved as a child.

Gaynor Brown, Foster Carer.

Learning Disability Services

The FX Project

Helping hands create a new sensory garden

Volunteers at the Prince's Trust designed a sensory garden for young adults with disabilities. The team worked hard to design and renovate the outdoor space within Caritas Care's building in Sedgwick Street, Preston. "The young people from Prince's Trust came up with ideas to brighten up the area and made a sensory garden. They interacted really well with our young adults and worked alongside them."

Cath Francis, FX Team Manager.

The garden, which was officially opened with the help of Preston Mayor, Councillor John Collins (pictured), will be an extra space for our day service to relax and gain sensory stimulation.

Vision in People (VIP)

Connor gained valuable work experience at Dobbies Garden Centre

For a third year running local garden centre, Dobbies, have provided work experience for our VIP Service. Our VIPs have all gained so much confidence through interacting with customers and staff.

They have learned to understand the need for stock rotation and why this is important, to follow instructions and most of all they have enjoyed working and completing the tasks given to them.

Supported Living

Steven enjoys thrilling Dr Who Experience

Steven has been a Doctor Who fan all his life and it was his dream to be able to visit a Dr Who themed venue. He'd heard there was something called the 'Doctor Who Experience' in Cardiff and so had a chat with his Key Worker at Caritas Care who helped him to arrange the trip. He was so excited when he got the news he could go and had an 'out of this world' experience!

Research in Action (REACT)

Award a Dream Come True for Stephen

We were delighted when we heard the news that REACT project worker Stephen Smith had won the Derek Russell Outstanding Leader Award 2017 at the North West Self Advocacy awards in Blackpool. Stephen was nominated by Caritas Care and Castle Supported Living in Clitheroe for his hard work and commitment to motivating and inspiring other people with a learning disability. Stephen was recognised for the high level of work he has put in to enable their voices to be heard.

“I am over the moon, it's a dream come true for me.”

“

“I have gained more confidence due to talking with people with similar experiences and issues, I could talk openly about my emotions and fears without being judged. The MAP group has given me the opportunity to try new things, exchange stories and my life experiences, which enabled me to open up in an honest way; this is something that I am unable to do with other people or with family. By discussing similar problems together, we were able to offer advice and support to each other – therefore stopping the struggle we all have. I know now, that one should never suffer in silence; there are other people to talk to, essentially/especially those suffering from mental health problem and addictions.”

Lisa; now an ambassador and ACE volunteer.
